

PROJECT PROFILE

ICHTHYS – ONSHORE LNG FACILITIES

The LNG Office facilities project, located at Blaydin Point in the Northern Territory, encompassed approximately 6000m² of two-story office space for the INPEX LNG Project, an additional 1500m² of single-story assorted offices and smaller buildings, and about 40 ablution blocks. The project involved comprehensive design and coordination, engineering, manufacture, and site installation. Northern Transportables executed the design, engineering, manufacture, and installation of all modules, adhering to strict project requirements and guidelines. Notably, the two-story configuration was the first of its kind in the Northern Territory.
