

NORTHERN TRANSPORTABLES

**CAPABILITY
STATEMENT**

Northern Transportables specialise in the design, manufacture, delivery and installation of turnkey transportable building solutions.

Get the Right Transportable, First time!

About Us

Locally established, owned and operated, Northern Transportables is the Northern Territory's award-winning transportable building manufacturer.

A registered building contractor at the forefront of the Territory's transportable manufacturing industry, we design and manufacture transportable buildings for both sales and hire.

Through our head office, fabrication and manufacturing facility base at East Arm and our Hire Asset and RAAF Sales facility and site office at Pinelands, we service a wide range of Northern Territory based industries within the government, commercial and residential, mining and civil, oil, gas and energy sectors.

Prefabricated and manufactured

onsite from the ground up, our products are delivered Australia wide using our own fleet of NHVAS and WAHVAS accredited heavy vehicles and trailers

Northern Transportables supports the Territory economy and industries, 'Buying Local' to support local businesses, local suppliers and employing local labour where possible.

Products & Services

Our portable building products are completely customisable to suit the specific needs of our clients.

Typically these include portable buildings such as commercial accommodation, bunkhouses, residential housing, classrooms, office spaces, control rooms, mining camps, site huts, kitchen and crib facilities, laundry's and ablutions, modular buildings and temporary buildings. We also offer a range of three and four-bedroom second hand RAAF housing for sale.

Our services include customized structural design and BIM, building transport, site installation and certifications – including building permits, site inspections, certificates of compliance and permits to occupy.

Design

Northern Transportables offers a creative and innovative design experience through interactive 3D Modelling, involving our clients in the design process, every step of the way.

Our professional design team includes qualified structural drafters and building information modellers (BIM) to capture our client's vision

Production

Our production team consists of skilled tradesmen, apprentices and trainees, transport and logistics staff supported by qualified professionals, including accounting and finance, contract and project management, human resources, QHSE, governance and risk management.

Facilities & Equipment

Northern Transportables' fabrication and manufacturing facility is over 3000sqm under roof.

We have a fleet of prime movers and a range of flat-top and step-deck trailers and house floats. Other equipment includes crane trucks, forklifts, bobcats, excavators (1.8T -30T), cranes (16T to 25T), scissor lift, EWP's and a concrete batching plant.

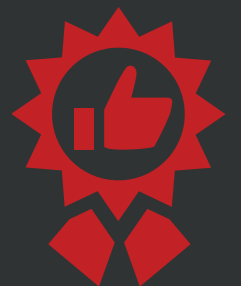

Accreditations

Northern Transportables is also proudly accredited with Contractors Accreditation Limited (CAL), the National Heavy Vehicle Accreditation Scheme.
