

PROJECT PROFILE

NORTHERN TERRITORY CLASSROOMS – GOVE REGION

Northern Transportables was engaged to Design & Construct Classrooms to be in several locations throughout the NT:

- Ngukurr School
- Gapuwiyak School

The project had several challenges that were overcome by the team, these included program and access to the work front, each classroom needed to be carefully programmed in with the school ensure a swift delivery whilst not affecting the day-to-day operation of the schools receiving new classrooms. The classrooms delivered were to a very high quality, detailing that the transportable classroom is has taken a big leap from its demountable classroom name.

The scope of work included:

- Detailed design
- Manufacture of 4 x Classrooms at our East Arm Facility ready for dispatch
- Local authority approval to enable to delivery / installation
- Detailed coordination with Stakeholders
- Transportation of the buildings to remote locations
- Civil Preparations to receive the buildings
- Installation of the buildings
- Installation of disabled ramps and connection pathways
- Service Connections
- Occupancy approvals
- Commissioning a turnkey solution
