

PROJECT PROFILE

ICHTHYS – ONSHORE LNG FACILITIES

Scope of Work

The LNG Office facilities project consisted of approximately 6000m² of two-store office space on the INPEX LNG Project, as well as an additional 1500m² of single storey assorted office and smaller buildings and approximately 40 ablution blocks.

The project involved:

- Design & Coordinator
- Engineering
- Manufacture
- Site Installation

Northern Transportables carried out the design, engineering, manufacture, and installation of all modules under the strict project requirements and guidelines.

The two-story configuration was the first of its kind in the Northern Territory.
